MY HISTORY

I'm Carlos Martínez Ripollés, a designer specialising in UX/UI and multimedia. I started my journey with a background in photography and imaging, then immersed myself in multimedia design at ESAT, where I developed skills in graphic design, animation and web development. My commitment to design led me to pursue a master's degree in web programming and UX/UI, consolidating my expertise in these areas. My focus goes beyond the visual; I'm dedicated to creating digital solutions that captivate users. I'm excited to contribute to challenging projects and continue to evolve in this exciting field.
